

WACRAOFAX AGREEMENT

Wisconsin Institutional Agreement to Fax Transcripts (and Other Records) as Official Documents

1. Each institution participating in the fax transmission and receipt of official transcripts and other documents must be listed in the WACRAO Membership Directory. The information maintained in this directory includes the name of the institution, name of the administrator (i.e. director of admissions, registrar or designee) responsible for the official records of the institution, title and office phone number, fax number(s) that may be used for transmission, and a telephone number that may be used for fax authentication, if necessary.
2. Institutions will be allowed to send fax transmissions 24 hours a day. Some institutions may have fax units that can be set up to automatically initiate outgoing calls during off hours when telephone rates are lower, whereas other institutions may have stand alone units and may be restricted to transmissions during normal business hours.
3. Fax transmissions should be allowed for single as well as multiple documents per transmission.
4. Fax transmissions must be accompanied by a WACRAO FAX Cover Sheet (see sample on next page) stating the name of the institution sending the document, the number of pages, the name of the operator initiating the transmission, and the date and time the transmission was initiated.
5. Upon receipt, the documents should be verified for completeness. If the integrity of the documents is subject to question, the data should not be treated as official and the receiving institution will directly contact the administrator (or designee) obtained from the WACRAO Membership Directory. The receiving institution should not rely on the telephone number transmitted with the document, as documents may have been sent from a non-authorized fax machine.
6. Each institution will adhere to provisions of its confidentiality of student records policy when using fax transmissions.
7. If the receiving institution accepts the faxed document as official, it will so indicate by stamping the document as “**Official Document Received by Fax.**” This should be done so there will be no question about document status once it is filed.
